

SAMPLE HEALTH INSURANCE POLICY

Dummy Policy Document for Policy & Claims Copilot RAG Project

Important: This is a completely fictional policy created for educational, RAG, LLM, testing, and demonstration purposes. It is not a real insurance contract and must not be used for an actual insurance claim or financial decision.

Policy ID	HIC-2026-001
Policy Name	SecureCare Family Health Plan
Policy Version	1.0
Effective Date	01 January 2026
Policy Type	Individual and Family Health Insurance
Annual Sum Insured	■10,00,000
Geographical Coverage	India

1. Eligibility and Policy Period

The SecureCare Family Health Plan is available to persons aged 18 to 65 years at policy inception. Dependent children may be covered from 91 days to 25 years of age when included in the family policy. The standard policy period is one year from the effective date shown in the policy schedule.

2. Hospitalization Coverage

The policy covers medically necessary hospitalization for illness or accidental injury when the insured person is admitted for more than 24 hours. Covered expenses may include room charges, nursing charges, doctor fees, prescribed medicines, diagnostic tests, and eligible hospital services, subject to limits and exclusions. Hospitalization must be medically necessary and supported by appropriate medical records.

3. Day-Care Treatment

Day-care procedures that do not require a continuous 24-hour stay may be covered when the procedure is in the approved day-care procedure list and is medically necessary. Retain the procedure report, medical records, bills, and treatment summary.

4. Pre- and Post-Hospitalization Expenses

Eligible medical expenses incurred up to 30 days before hospitalization and up to 60 days after discharge may be covered when directly related to the same hospitalization and supported by valid medical records and bills.

5. Room Rent and Nursing Charges

Room rent and nursing charges are covered up to **■5,000 per day** for standard hospitalization. Eligible ICU room charges are covered up to **■10,000 per day**. If the selected room exceeds the applicable limit, payment may be restricted according to the eligible limit and applicable proportionate deductions.

6. Co-payment

A 10% co-payment applies to eligible hospitalization expenses for insured persons who enter the policy at age 61 or above. For insured persons below age 61, no standard age-based co-payment applies unless an endorsement states otherwise.

7. Waiting Periods

General: 30 days from policy start for illnesses, except accidental injury. **Specified diseases:** 24 months for selected diseases and procedures listed in the policy schedule. **Pre-existing diseases:** 36 months unless the

policy schedule states a different period.

8. Maternity Benefit

Maternity expenses are covered up to **■75,000 per pregnancy** after a waiting period of **24 months**. The benefit is limited to two deliveries during the insured person's lifetime under this policy.

9. Ambulance Benefit

Emergency road ambulance expenses are covered up to **■5,000 per hospitalization** when medically necessary and supported by a valid ambulance bill. Air ambulance expenses are not covered under the standard plan.

10. Exclusions

The following are excluded unless specifically endorsed: cosmetic or aesthetic treatment except eligible accident-related treatment; treatment related to intentional self-inflicted injury; routine examinations and preventive screenings unless specifically included; specifically excluded substance or alcohol-related treatment; experimental or unproven treatment; personal comfort items such as television, telephone and toiletries; and war or nuclear risks unless endorsed.

11. Cashless Treatment

Cashless treatment is available at eligible network hospitals subject to pre-authorization. Cashless authorization is not a guarantee of final payment. Final settlement remains subject to policy terms, medical necessity, documents, exclusions, limits, and verification.

12. Reimbursement Claims

For reimbursement claims, the insured may pay the eligible hospital bill and submit required claim documents to the insurer or authorized claims administrator. The claim team will assess eligibility according to the policy terms.

13. Claim Submission Timeline

Planned hospitalization: request cashless pre-authorization before admission whenever reasonably possible. **Emergency hospitalization:** notify the insurer or claims administrator within **24 hours of admission** or as soon as reasonably possible. **Reimbursement:** normally submit complete documents within **30 days from discharge**.

14. Documents Required for Hospitalization Claim

Required documents include: completed claim form; policy or health card details; identity proof when requested; admission and discharge summary; final hospital bill and detailed bill breakup; payment receipts; doctor prescriptions and consultation records; relevant diagnostic reports; pharmacy bills and prescriptions where applicable; treatment summary; and bank account details for reimbursement when required.

15. Claim Verification

The claims team may request additional documents or clarification, including previous medical records, original reports, treatment notes, itemized bills, or clarification from the hospital. Submission of documents does not guarantee claim approval.

16. Sub-limits

Standard room rent: ■5,000/day. **ICU room:** ■10,000/day. **Emergency road ambulance:** ■5,000/hospitalization. **Maternity:** ■75,000/pregnancy. **Annual sum insured:** ■10,00,000.

17. Claim Processing

The claims team verifies policy status, coverage, waiting periods, exclusions, limits, medical necessity, documents, and other applicable conditions. A preliminary pre-check generated by a digital assistant is not a final claims decision.

18. Policy Support Questions

Examples: Is hospitalization covered? What is the room rent limit? What is the ICU limit? Is there a waiting period? How long is the pre-existing disease waiting period? What documents are needed? How soon should emergency hospitalization be reported? What is the maternity limit? Is ambulance coverage available? Does the policy cover air ambulance? Is cashless treatment available?

19. RAG Testing Scenarios

Scenario A: Ask about the room-rent limit. Expected retrieval: room-rent clause.

Scenario B: Ask about the general waiting period. Expected retrieval: 30-day waiting-period clause.

Scenario C: Ask for hospitalization reimbursement documents. Expected retrieval: documents section.

Scenario D: Describe a hospitalization with available documents. Expected result: preliminary claims pre-check.

Scenario E: Ask about an imaginary treatment not described in the document. Expected result: the system should not guess and should say it cannot be confirmed from available policy evidence.

End of sample policy. This fictional document is intentionally designed for demonstrating PDF extraction, chunking, embeddings, vector retrieval, grounded LLM answers, citations, and claims pre-check logic.
